***Examiner's Amendment/Reasons for Allowance***

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

***In the Claims***

2. Claim 18, delete "of claim 18" and insert --of claim 17--.
3. Authorization for this examiner's amendment was given in a telephone interview with Dave Grillo on May 22, 2006.

***Reasons for Allowance***

4. Claims 1-28 and 30-31 are allowed.
5. The following is an examiner's statement of reasons for allowance:

Further to the Reasons for Allowance stated in the Office Action December 21, 2004, the alternative prior art of Kevin Woods et al, Combination of Multiple Classifiers Using Local Accuracy Estimates, teaches classifier fusion algorithms wherein individual classifiers are applied in parallel and their group outputs are combined in an appropriate manner to achieve "group consensus." In the further alternative, Kagan Tumer et al, Classifier Combining: Analytical Results and Implications teaches substantial improvements can be obtained in difficult pattern recognition problems by combining or integrating the outputs of multiple classifiers. However, neither Woods nor Tumer

teaches probability outputs from a plurality of classifiers input to each dependency models associated with each category, nor do they teach reliability indicator discrimination defined by the applicant as attributes of the item being classified, nor do they teach acquiring test results where the tests are defined sequentially (tree configuration) as test of item attributes where such item attributes are reliability indicators.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
